

## *Wilde Country Rancho Sales List*

Welcome to WCR, the brand that people know spells quality. We are also working on quantity so have made the heartfelt decision to share the program that has been created over 20 years of selective breeding, care and hard work.

As you will see from the sales pages, there are 100 llamas with an estimated value of almost \$300,000. The llamas are priced well within or below market levels working to fit into a market that is strong for quality llamas and growing with the continued efforts of those invested in the industry.

The entire herd package price is \$175,000 and can be purchased on agreed terms.

The plan for Wilde Country Rancho is to down size to an acreage and work with a much smaller herd that can be managed easily and still leave time for some life experiences! Thank you to all who have supported this breeding program over the years and I wish you continued success with those excellent llamas.

Find it, like it, buy it! Enjoy shopping the web pages!  
Create a package that works in your program and let's talk terms!
